## TAXATION OF LAND ACCORDING TO VALUE

A Better System Than That of Levying Taxes on an Acreage Basis

When a rate of taxation amounting to about \$2.00 per quarter section was the total tax required to be levied on the lands in the Province for Provincial or Municipal purposes, the fact that these taxes were levied on a flat rate of so much per acre, regardless of the value of the land, did not cause any particular complaint, as while it was not a fair basis of taxation, the amount of taxes payable on each quarter section was so small that no particular objection could be made, and the fact that a man owning a quarter section worth about \$10,000 paid as large a tax as a man owning a quarter section worth \$1,000, was not given much consideration. As the time went on it was necessary to raise the rate of taxation and to levy additional taxes. With increased taxes it became evident that the levying of taxes on an acreage basis was not fair. It is admitted that it is impossible to levy taxes on an absolutely fair basis, but as the increase in the amount of taxes to be paid on a quarter section made it clear that a system of taxation whereby a quarter section worth only about \$100 was taxed as high as one worth \$10,000, was not fair. Under such a system of taxation, taxes are not levied in accordance with the ability to pay. At a rate of say 10¢ per acre, a man with a quarter section worth \$10,000 paid \$16.00 taxes, so does the man with the quarter worth \$40,000. This is, then, the man with the greatest ability to pay, pays only a small amount of taxes as his poorer neighbor who has land worth only a quarter as much. This is, for the purposes of taxation, a very bad system.

It is owned by the man with the poorer land is rated much higher than its real worth, while in the case of the man with the more valuable land, his property is rated at less than it is worth.

In considering the merits of any system of taxation, the master must be approached from the standpoint that taxes should be levied according to the ability to pay, and looking at it in this way there does not appear to be any sound argument against any system of levying taxes according to value, rather than on an acreage basis. This principle has been recognized in connection with taxes levied directly or indirectly for the benefit of the Province, at large, and different Acts through which the Province derives revenue from taxes on lands were amended at the last session of the Legislature by an amendment introduced by the Minister of Municipal Affairs, that beginning with the year 1920, all taxes levied by the Province, except for the benefit of the townships, districts and Improvement Districts, and taxes levied on lands subject to taxation under the Wild Lands Tax Act, will be levied according to the value of the land.

The only exception will be the taxation of lands leased from the Dominion Government, and in these cases the taxes will be levied on an acreage basis, but the rate is such as does not create any great hardship.

In preparation for this work, all lands outside of organized Municipal Districts and the Improvement District Act, and taxes levied on lands subject to taxation under the Wild Lands Tax Act, will be levied according to the value of the land for the purpose of taxation under the Supplementary Revenue Act; taxes levied on lands outside of organized Municipal Districts and the Improvement District Act, and taxes levied on lands subject to taxation under the Wild Lands Tax Act, will be levied according to the value of the land for the purpose of taxation under the Supplementary Revenue Act.

The basis of taxation is the cash value of the land without taking into account any improvements made upon the land by the expenditure of capital or labor. In working out this cash value there are only three factors which are required to be taken into consideration, namely—

First—The nature of the soil. Second—The nature of the surface, that is, whether it is broken by ravines, coulees or timber an so on.

Third—The distance of land from a shipping point.

As the comparative values will only change under exceptional circumstances, as, for example, where a new railroad passes through the locality, and as this is the third and last consideration, it will be noted that once a value is fixed there will not be much change for some years. This being the case, provision has been made for a valuation by Municipal Districts only once in every five years, reducing the cost of administration in connection with the levying of taxes. The first valuation under this scheme will be the valuation for 1920, to be made in the year 1925, and so on. Provision has of course been made for the valuation in any year of land which becomes liable to taxation, provided that you are not liable to taxation. The first valuation will be the valuation for 1920, to be made every five years, will not exempt land from taxation which becomes liable to assessment and will disallow any other than that in which the general assessment is required to be made. Tax notices will of course be issued each year.

One of the main objections to taxation of land according to value is the fact that the owner of poor land is generally a poor man, pay the same amount of taxes as the owner of good land, who is generally a better man and better able to pay.

One of the main objections to taxation of land according to value is the fact that the owner of poor land is generally a poor man, pay the same amount of taxes as the owner of good land, who is generally a better man and better able to pay.

Such, however, is the case in the Province in regard to the taxation of farm lands, requires the valuation of these lands for taxation purposes to be made on a flat basis, based on the value of the land, the value of the improvements placed upon it by hard labor and by expenditure of money. Such, however, is the case in the Province in regard to the taxation of farm lands, requires the valuation of these lands for taxation purposes to be made on a flat basis, based on the value of the land, the value of the improvements placed upon it by hard labor and by expenditure of money.

This is, a man with improved his land, by cultivation, building of fences and putting up of buildings is not punished for doing so by having to pay taxes on such improvements. If a man has land equal in value of unimproved land has just as large a tax to pay as the man who improves his farm, and if he is making no use of his land, has, in addition, to pay a Wild Lands Tax.

## Light and Water Tariffs

For some time past the Town Council have been considering the matter of raising the rates for light and water. The rates for water have been levied on an old tariff issued many years ago and the receipts per month are out of all proportion to the cost of the water. The old tariff has been in existence for a certain proportion of the tax year, and has always been applied to deficit on the running expenses of the utilities, the proportion so applied in the past year of 1918 has been too great. Generally speaking, it can be said that the loss on the utilities in 1918 as compared to 1916 was more than \$10,000. It cost the town over \$60,000 to maintain the utilities in 1918 than it did in 1916 owing to raise in wages and material. In any case some attempt must be made to place the utilities on a more reasonable basis, and the cost of everything else has arisen by leaps and bounds the cost of water to consumers in the town has remained the same for many years, and the Councils have no option but to raise the rates. The new tariff comes into effect on 1st July, by which time copies of the water schedule will be ready for issue. The electric light rates are to be raised 20 per cent.

## SHARPLES DAY

We have arranged with the Sharples Separator Company for a Sharples Day to be held at our store and farmers are invited to come in to the store and bring their families with them on that day. Special representatives of the Sharples Company will be with us and demonstrate the machines from the "world's greatest separator factory," the wonderful

### SHARPLES SUCTION-FEED CREAM SEPARATOR

We want you to see this separator because it is a marvel in the new profit it insures you. And yet, it is more simple, more reliable, and easier to wash than any of the old-style fixed feed separators. It gives you the cream you want, which it may be turned and delivers a cream of even thickness at every feed. A Sharples representative will demonstrate this Suction-feed Separator and tell you of the Sharples Milker at our store on Sharples Day. The Sharples Suction-feed Separator can be cleaned—only one piece in the bowl—no discs to wash. If you are now using a Sharples Separator and it is in need of any repair, bring it to us. We will repair it for you. His services will be free to you. It is our wish that all farmers of the county can visit us at our store on Sharples Day and see our separator for all. Remember the date of Sharples Day at our store—it is

Easy to turn, oil and clean

We are receiving fresh Halibut and Salmon every Tuesday and Friday morning direct from Vancouver.

Also in connection we have an excellent cooling system which is always below freezing, where cooked meats of all kinds are kept.

Phone orders promptly delivered.

Thanking you for past favors,

Yours truly,

D. A. ANDERSON

## Clareholm Local News

Mrs. Locke left Friday morning for a visit to the coast.

A brother of J. B. Boese is visiting in town for a few weeks.

Roy Stebbins has been in bed for several days with typhoid fever.

Pete Earl Atkinson has been sick for the past week but is now able to be out again.

Phil Hood's new house is nearing completion and is quite an addition to that part of the town.

A special program has been arranged for the Clareholm Chautauqua which opens on July 19th.

The new cement crossings which are being put in some parts of the town are a great improvement.

C. Braren has resigned from the managery of the baseball team and J. Reynolds has been elected to fill the vacancy.

The High School baseball team played with Nanton High school boys on Thursday evening. Nanton boys won 7-5.

There will be a special meeting of the I. O. D. E. on Tuesday June 24, in Harrison Hall, at 4:30 in connection with the park.

Mrs. C. Braren is in the Western hospital at Calgary. She had an operation early in the week which was entirely successful.

Ralph Lepard who went to Rochester to the Mayor Brothers for an operation, is doing well and expects shortly to start for home.

Rev. Mr. Faltand is to install the new pastor, Rev. C. B. Johansen, at Enchant on Sunday, June 22. The Lutheran choir from Clareholm will furnish the special music for the occasion.

The Clareholm baseball team lost to Barons 15 to 3 in the first league game. It is the 7th and 8th time the team is looking for better results next time. The boys gave Barons some good sport in any case.

Ambassador Gerard's "My Four Years in Germany" coming to the stage July 7th and 8th. The lecture will be given showing in the largest theaters only, having appeared twice at the Grand Theatre, Calgary.

Rev. H. G. Faltand is in Clareholm this week taking in the commencement of the Camrose Lutheran college, and also attending the annual convention of the Alberta Norwegian Lutheran College Association.

The continued dry weather is causing much concern both with the ranchers and farmers. The summerfallow is holding out well but there is not much moisture in the ground. A good rain within the next few days would yet give a good crop.

F. W. Elliott the owner of Willow Creek Ranch, just north of the water works pump house, requests that people will open his gate and shut the gate when they go in and out. Mr. Elliott's request is a most reasonable one. He has a large amount of stock and it makes him no end of trouble when the gate is left open.

The Mission Circle held a very successful meeting last Saturday evening. Held in the Milnes Block under the auspices of the U. F. W. A., in aid of a rest room for farmers' wives. Tea was also served and we were glad to see such a good number of farmers folk, the net results being \$88.90.

We hope to start this much needed rest room before very long and would like to get as many members as possible.

Please appear at the Secretary's, Mrs. F. W. Elliott.

Fee \$1.00 per year.

Apropos of the Grossmith concert and dance, the following explanation is given: The baseball team were asked to sell the tickets for the concert on the understanding that they get 20 cent of what they sell for the baseball handbills. This is the reference to school funds. The girls need athletic suits, and they have taken this opportunity to work for them; help them, do not dole out to them. The ticket under the minute, as ever, is sold after 7:45 goes to Mr. Grossmith. As for the dance, this is Mr. Grossmith's own idea, and it is a great success in the school.

The program is a good one, the artist is a capable man of many talents, and his entertainment will be well worth attending.

## U. F. A. Meeting

The U. F. A. meeting which was O. P. A. last Thursday in the I. O. D. E. hall was a success, although not as well as it deserved. It at least indicated the amount of intelligent interest that is being taken in the great problems of today by the Clareholm people.

There will be a special meeting of the I. O. D. E. on Tuesday June 24, in Harrison Hall, at 4:30 in connection with the park.

Mrs. C. Braren is in the Western hospital at Calgary. She had an operation early in the week which was entirely successful.

Ralph Lepard who went to Rochester to the Mayor Brothers for an operation, is doing well and expects shortly to start for home.

Mr. Angus McIntosh returned from overseas this week. He has spent several years in France and Belgium. His many friends are glad to see him back looking so well.

Rev. Mr. Faltand is to install the new pastor, Rev. C. B. Johansen, at Enchant on Sunday, June 22.

The Lutheran choir from Clareholm will furnish the special music for the occasion.

The Clareholm baseball team lost to Barons 15 to 3 in the first league game. It is the 7th and 8th time the team is looking for better results next time. The boys gave Barons some good sport in any case.

# Huns Must Sign Treaty This Week

Paris.—Distinct progress was reported on the reply of the allied and associated governments to the German counter-proposals. The government said it would be within days' limit for final action, which would therefore come on or before June 18.

The main feature of this progress was an agreement regarding the repartition of the territories which have been the subject of a sharp controversy during the past ten days.

As finally adopted, the terms do not fix the definite amount of reparations, but the commission is required to do so within four months of the signing of the peace.

The main changes are explanations rather than modifications, in order to meet the contention that the financial commission was vexatious, impudent and overbearing in its right to conduct her own financial affairs.

The revised terms clear away much that was open to the construction of being vexatious.

Final action on Germany's requested franchise to the League of Nations has not yet been reached, but the discussion is decided to be turned toward an accord.

The question, which has been distinctly settled, is virtually

settled. It is practically certain

that the revised treaty will not be submitted to a plenary conference

with the smaller powers before the reply is sent to the Germans. The revised terms will be signed and accompanying the treaty will be sent to Count von Brockdorff-Rantzaus, head of the German delegation, by messenger without ceremony.

## Dry City To Have

\$7,000,000 Hotel

### Work Will Be Started Within Sixty Days

Detroit, Michigan.—In view of the oft-repeated statements of the League interests that prohibition would ruin the hotel and restaurant trade, it is interesting to note the announcement that work will be started within sixty days on a hotel for Detroit, which will cost \$7,000,000, and contain 1,000 rooms. It will be the largest hotel ever built in Detroit. The site, situated on Madison avenue, with Woodward street, and Adams avenue, and the hotel will overlook Grand Circus Park.

## French Are Passive

### Toward France for a Rhenish Republic

Paris.—The attitude of the French government toward the movement for a Rhenish republic is a passive one, according to a statement by a high French authority on the French official position.

The attitude of the French government toward this manifestation, the authority said, "is the same as the attitude of the other allied governments — that is, one of passiveness. Brussels, Paris and London are lending their support to the movement."

The government decided to release the students who were to leave the university in which they are confined unless the chief of police officially apologizes for the arrests.

Demonstrations in favor of the boy-cott movement continue without restriction.

## Hon. Crear Speaks On The Budget

### Is Opposed to Fiscal Policy, While Hon. Calder Is Satisfied

Ottawa.—Members of the common who anticipated a livening up of the budget debate because Hon. T. A. Calder and Hon. A. Calder were to be called in to give their views on the budget, Mr. Crear explained that he had dropped out of the government because he found himself in sharp opposition to his colleagues on the fiscal policy, while the only honest course for him was to withdraw from his position. Mr. Calder on the other hand maintained that until demobilization is complete the tariff was not an issue.

Mr. Crear objected to the budget because it was proposed to increase the military budget, while the government said it would have satisfied had no tariff changes been announced this session. He agreed with Sir Thomas White's proposal to have tariff revision later on several occasions. The main changes are explanations rather than modifications, in order to meet the contention that the financial commission was vexatious, impudent and overbearing in its right to conduct her own financial affairs.

The revised terms clear away much that was open to the construction of being vexatious.

Final action on Germany's requested franchise to the League of Nations has not yet been reached, but the discussion is decided to be turned toward an accord.

The question, which has been distinctly settled, is virtually

settled. It is practically certain

that the revised treaty will not be submitted to a plenary conference

with the smaller powers before the reply is sent to the Germans. The revised terms will be signed and accompanying the treaty will be sent to Count von Brockdorff-Rantzaus, head of the German delegation, by messenger without ceremony.

## Japanese Boycott

### Bankers, Merchants and Workmen Lending Support to Movement

Pekin.—The Chinese government is unable to stem the tide of the Japanese boycott movement, being powerless to do so. But the students due to leave the university in which they are confined unless the chief of police officially apologizes for the arrests.

Demonstrations in favor of the boy-cott movement continue without restriction.

## French Aided Bolsheviks

Helsingfors.—The treacherous attack of German cavalry upon the Esthonians when the latter were pursuing the retreating army was used as the direct order of General Der Grolle, commander of the German forces in Lettland.

The action unmasks the Germans as secret accomplices of the Bolsheviks and the Esthonians will now begin military operations against the Germans.

## Rioting In Winnipeg

### War Hero Injured By Mob and Spies in Strike Strike

Winnipeg.—Following the first really serious conflict between returned soldier constables acting in place of the regular police force, which was dismissed by the police commission, former recruits to pledge themselves to the strike, and to support the strike, seven arrests were made. Severe trouble resulted when a large crowd of strike sympathizers jeered and booted the special constables.

The crowd surged into the street, shouting, "Down with the police for vehicles that the special constables came into conflict with demonstrators. One of the mounted constables, Sergeant Frederick G. Copeland, winner of the Victoria Cross, was struck in the head by a stone and the only horse he was carrying, the only horse in the crowd, was thrown. The constable was dragged from his horse and severely pummelled before being released.

A squad of regular police was dispatched to the aid of their sorely pressed comrades, they were met by a fusillade of missiles, and the police retaliated by a free use of their batons on the heads of demonstrators.

The appearance of an additional detail of 200 policemen marching down Main street in platoon formation had a calming effect on the crowd and the rioting ceased as suddenly as it began.

In another clash between a crowd led by aliens and four special constables, Constable T. S. Morrison is lying in the hospital with a shot wound through the thigh and a body wound in the head.

One of the soldiers, who had struck the head with a club and knocked unconscious, but is not seriously injured.

Special Constable Morrison was on the point of returning to the Canadian Pacific railway station on Higgins avenue in company with three other officers.

A horse crowd of over a hundred, of whom it is estimated to have been over a hundred persons, of whom the majority were aliens, charged and stampeded, constables, constables to gather, and for some time continued to heckle the constables.

Suddenly the crowd closed around the policemen, the last one to be disposed of was the constable, who was knocked unconscious by a blow on the back of the head. At the instant that he fell a man was seen to have a raised club above his head. An automatic pistol was drawn by the driver, driving the rail road car, drew a revolver and fired at the constable. The bullet missed the object and passed through the thigh of Constable Morrison, whom the driver had intended to kill.

At a special meeting of the police commission a resolution was passed relieving the chief of police, Donald Macpherson, Chris H. Newton, and the deputy chief, is now the acting chief.

In a statement issued by the police commissioners it is stated that the commission "deemed it advisable to postpone the reorganization of the police force in charge of Deputy Chief Newton."

In a statement issued by the police commissioners it is stated that the commission "deemed it advisable to postpone the reorganization of the police force in charge of Deputy Chief Newton."

Black Watch—The Best Black Chewing Tobacco on the Market

Hamilton That Never Can Be Rebuilt

Panama.—Investigations by the commission which is examining the devastated regions of France are confirming the worst evidences that many of the Germans and half of the battle areas are irreparably ruined that they never can be rebuilt.

Vaux, of immortal fame, has taken its place in the long list, and the towers of two other historic villages, Dantzig and Stettin, have been entirely destroyed, their people, who are refugees in various parts of France, that these places cannot be rebuilt.

Not only is the soil in such a condition that it can be cultivated for many years, but the ruined villages are filled with hidden explosives and other dangers.

Protests Against Territory Losses

Panama.—The commission not only strongly against the demands of Austria, particularly the separation of Bohemia and the Tyrol. The note says that Austria cannot survive the loss of her industries. It is added that the Austrian delegation is prepared to send immediate observations on the territorial clauses of the peace terms.

Rhenish Republic Ready to Pay Share

Cologne.—Dr. Darton, president of the new Rhenish republic, has telegraphed Sir William Robertson, commander of the British forces of occupation here, announcing the formation of a national government and any desire to realize a "just share in the reparation of war damages." He appeals to the entente powers to protect the new state from inevitable re-venge from Prussian militarists.

**\$10,000,000 Tunnel**

**One Mile of it Will Be Completely Under the Sea**

Washington, D. C.—Advices from Tokyo say a submarine tunnel under the Shimonoseki Strait will be started this year, and it is planned to complete it in 1928, according to an announcement by the chief of the Japanese bureau of the Japanese Government railways.

It is estimated that the tunnel will cost \$10,000,000. Two years will be devoted to studying the geological formation of the strait bed and drafting the general plan of work in preparation for the start. Two Japanese engineers will start to send engineers to the United States and Europe to study the tunneling achievements of the West.

The length of the tunnel will be seven miles, of which three will be completely under the sea.

If one is troubled with corns and warts, he will find in Holloway's Corn Cure an application that will entirely suffice.

**Amending Liquor Act**

Edmonton, Alta.—Amendments to the Alberta Liquor act will come into force, and something nearer a government fixed price for liquor on physicians' prescriptions will be the rule.

After the terms of the amended act go into effect, the government will have power to fix the price charged by druggists. This action has not yet been taken, but will be covered by an order-in-council in the near future.

**World Food Committee**

Paris, France.—A supreme economic committee, composed of Herbert Hoover, Lord Robert Cecil, M. Clementi, Signor Crespi and Baron Emile de Cartier de Dardilly, of Belgium, to study a plan for limitation of the world's food control and to study how economic problems are to be met after the approaching harvest.

**THANKFUL MOTHERS**

Thousands of mothers throughout Canada—many of them their neighbors—will be interested in the following notes concerning the use of Baby's Own Tablets. Once they have used the Tablets, they will never use anything else.

"They are absolutely safe medicine for even the youngest babies," says a government analyst to confirm neither opiates nor narcotics or other drugs are present in them. Mrs. David McRobb, Divorce, says:

"I have used Baby's Own Tablets for my baby and I can't say I would not be without them."

The Tablets are sold by medicine dealers in small at 25 cents a box from The Dixie Medicine Co., Brockville, Ont.

**Capacity of Ships Now Greater Than Ever Despite U-Boats**

London.—At a dinner of the Cold Storage Association, Sir Joseph Brothman, president, said that there were now 50 British ships with refrigerating accommodation of 50,000,000 cubic feet, a noteworthy number, and a capacity greater than ever, despite the losses to British shipping. Robert food controller, referring to the value of refrigeration, mentioned that since the beginning of 1918 there had never been less than 32,000,000 tons of produce stored in the United Kingdom, over one-half of which was meat.

**Play the Poor Klugs**

The desperate results of ex-crooks in Europe are illustrated in the case of former Emperor Charles, who has taken refuge in a Swiss castle that is occupied by his mother-in-law, Kansas City Journal.

Ten days' intimate acquaintance with poverty will satisfy any man for the rest of his natural days.

**Babylonian Tablets Bought**

Columbus.—Thirteen clay tablets dating from 400 to 2,400 B. C. have been purchased by the Ohio State university library. They were found in an ancient Babylonian cities recently excavated. Columbus says the figures of the number of animals to be sacrificed at the temple each day. The others are letters, business communications and receipts for animals.

"For a few years the population has decreased," Clinton Giduz, "No," answered Cactus Joe. "We're more cheerful than usual. Everybody seems to think it's a great joke on all the rest of the boys."—Washington Star.

**HAD WEAK and FAINTING SPELLS**

Those feelings of faintness, those weak, "all gone" sinking sensations, will come over some people from time to time, and they must not be regarded as serious.

They may be extremely weakening, or they may be merely a directed nervous system.

When the system is in this condition, a fainting spell may be recovered from "with the next." One dizzy spell may not be serious, but if it continues, it is serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills before their care becomes deep-rooted, and perhaps hopeless.

Mrs. Mary McCay, of Alberta, says:

"With the help of Milburn's Heart and Nerve Pills, I have never had a dizzy spell since I began taking them. They are the best pills I have ever had."

Milburn's Heart and Nerve Pills are \$6 a box at all dealers, or mailed direct on receipt of price by T. F. Milburn & Co., Limited, Toronto, Ont.

**Wheel Greatest Invention**

A World War's Greatest Invention Left to the Imagination

Some time ago readers of an English newspaper were asked to state what, in their opinion, constituted the world's greatest invention.

Having stated their opinions, a postcard was sent to the editor, and, as the chaff, it was decided to award the guinea prize to Sgt. H. Jordan of the 19th Hussars, Aldershot, whose entry read:

"The world's greatest invention is undoubtedly the wheel, and the palm should be awarded to the unknown genius who invented it."

"Steam traction, spinning, looms, cars, and, in fact, almost every invention in the world's history, date from the wheel."

"A world without wheels is best left to the imagination," says the editor.

Having stated that the wheel is the greatest invention, the editor, as the chaff, it was decided to award the guinea prize to Sgt. H. Jordan of the 19th Hussars, Aldershot, whose entry read:

"The world's greatest invention is undoubtedly the wheel, and the palm should be awarded to the unknown genius who invented it."

W. C. Miller,  
Secty-Treas.

Town of Clareholm.

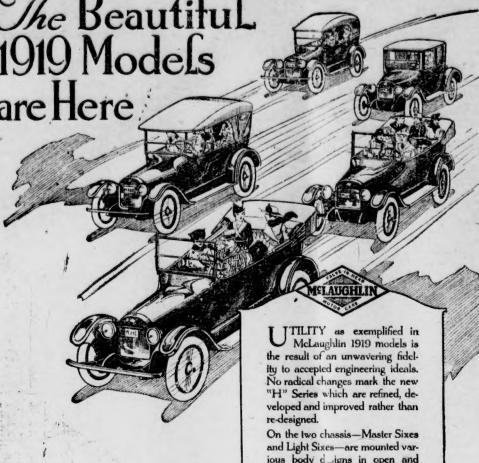

## LOST

One bay mare rising two years old, with white stripe in face, one white front foot and two white hind feet, and manes cut some time ago, branded **V G** on right shoulder. \$5.00 reward for recovery of mare. Notify 143p. E. McRae, Gramson, Alta.

## STRAYED

One young red cow with horns and star on forehead and her heifer calf which is about two months old, is red and has all four white feet. Also a small calf about five months old with star. \$10 reward for information leading to recovery of these animals. Phone R905. Write A. Lange, Clareholm. 13-3

# The Beautiful 1919 Models are Here

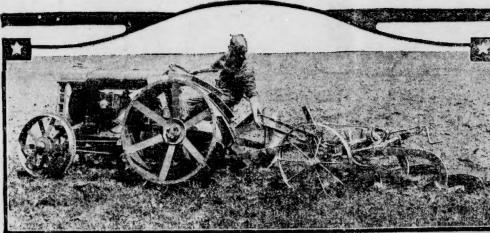

UTILITY as exemplified in McLaughlin 1919 models is the result of an unwavering fidelity to accepted engineering ideals. No radical changes mark the new "H" Series which are refined, developed and improved rather than re-designed.

On the two chassis—Master Sixes and Light Sixes—are mounted various body designs in open and closed models comprising a car for every need.

The McLaughlin Motor Car Co., Limited  
Galt, Ontario

## Vanhorn & Stebbins, Limited

SERVICE THAT SATISFIES

## A famous tractor—the Fordson

THE Fordson tractor has attracted the attention of every civilized country. It is used by thousands in Europe today. It has shown the way to make farms produce more—in every country—and of every size.

Built right—simple, durable, economical, easy to operate—easy

to care for; the Fordson fulfills every requirement. It will make your farm a more profitable investment—will take worries off your shoulders.

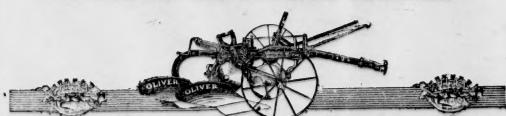

Burns kerosene—all gears are enclosed. The Fordson is built especially to meet the need for a tractor which must be cared for by the operator himself.

### Use it with the Oliver No. 7 Plow

Good plowing—every acre exactly as you want it—that's the result of using the Oliver No. 7 Plow especially designed for the Fordson tractor. Trash and weeds are buried at the bottom of the furrow; the stop device maintains an even depth of furrow. It's the plow that works to the best advantage with this tractor.

Come in and let us show you the Fordson tractor and Oliver plow.

### CORRESPONDENCE

#### Review-Advertiser

I notice Gramson correspondence of June 1st. He talks of high ideals and brothers. I think it is higher prices. He speaks of tents and the old car. But only one tent had to be moved and it would take hand five minutes to take it down.

This committee ain't sticking up for the old car, but will leave it to any fair minded committee of men to take 10 days to build a car of the size and build a car of that size. I would not have written this only false impressions and not honorable had been left out of the Gramson article.

About the old car costing \$50 last year. Well, how about the new C.P.R. coach he speaks like we are not to be believed. We are, but it cost \$50 for the month of May to repair it, and that is only one month. I guess that is the reason the crew goes by the new train, as the old one looks something like a C.P.R. coach.

Well, I suppose I just as well sign my name same as the other Committee.
